RELIABLE COMPUTING (formerly "Interval Computations") An International Journal

I. Reliable Computing:

- is a refereed international journal;
- is the only periodical in the world devoted specifically to various aspects of reliable numerical computations based on the interval approach and related techniques;
- is managed by an international editorial board from Bulgaria, Germany, Japan, Russia, and the United States, and printed in Russia;
- is distributed in approximately 30 countries throughout the world;
- contains items related to theoretical research, computer tools, applications, interdisciplinary research and other relevant areas;
- contains original papers, surveys, reports on new computer tools, bibliographies, reviews of new books, letters to the editor, information about scientific meetings, advertisements of software and hardware;
- is reflected in well-known review journals such as *Mathematical Reviews*, *Referativnyi Zhurnal VINITI*, etc;
- publishes papers in English and Russian, with at least 90% of the items in English. All articles have abstracts in both languages;
- publishes special issues containing selected papers or complete proceedings of international conferences worldwide such like SCAN'93, Interval'92 and 94, NAARV'93, CSAM'93, etc.

II. Further Information

For further information, please contact the editorial board:

Editors
Reliable Computing
P.O. Box 52
St.Petersburg
195256, Russia
Phone: +7-(812)534-4120
Fax: +7-(812)234-4852
E-mail: nest@nit.spb.su, intcom@glas.apc.org

III. Subscription Information

Subscription information can be obtained from:

Dr. R. Baker Kearfott
Department of Mathematics
University of Southwestern Louisiana,
U.S.L. Box 4-1010
Lafayette, LA 70504-1010, USA
Office: (318) 231-5270
E-mail: rbk@ucs.usl.edu

IV. Special Subscription Rate for Workshop Participants

A special subscription rate is available for Workshop participants: $44 per year (for 4 issues).

V. Old Issues

Some old issues are available, too.
