

Interval Computations

No 2(4), 1992

Bibliography of Soviet Works on Interval Computations

Part III

In the precedes issues we began to publish a bibliography including references to the works of the authors who were the citizens of the Soviet Union the works were written.

In this issue we continue to publish a bibliography.

The list, prepared in the Computer Center of the Siberian Branch of the USSR Academy of Sciences (Krasnoyarsk) under the management of Dr. Boris S.Dobronets, was taken as the basis for the bibliography. Later, the list was corrected, appended and translated into English by Lyudmila V.Kupriyanova (Saratov State University), and edited by Alexander G.Yakovlev (Moscow, Institute for New Technologies) and R.Baker Kearfott (University of Southwestern Louisiana).

Editorial board can organize a qualitative translation of the texts into English for a reasonable fee (see addresses for communication at the end of the issue; contacts via e-mail are preferable).

Besides, we can supply foreign readers with copies of these materials in Russian.

In subsequent issues of "Interval Computations" the continuation of the bibliography, corrections and new references will be published.

The bibliography as an ASCII file is available via e-mail. Please, feel yourself free to ask editor-in-chief for receiving a bibliography.

Библиография советских работ по интервальным вычислениям

Часть III

В предыдущих номерах мы начали публикацию библиографии работ лиц, бывших на момент написания данных работ гражданами СССР. В этом номере продолжаем публикацию библиографии. Ее основу составил список, подготовленный группой сотрудников ВЦ СО РАН (г. Красноярск) во главе с Б.С.Добронцом, дополнение списка и перевод ссылок на английский язык осуществила Л.В.Куприянова (Саратовский госуниверситет), в редактировании приняли участие сотрудник Института новых технологий (г. Москва) А.Г.Яковлев и д-р Р.Б.Кирфотт (Университет Юго-Западной Луизианы, США).

Как и прежде у редколлегии "Интервальных вычислений" отсутствует возможность рассылать адресатам в бывшем СССР копии представленных в библиографии работ, но она готова посредничать в установлении контактов между заинтересованными зарубежными специалистами и советскими авторами. Кроме того, по заказу зарубежных специалистов в качестве платной услуги мы можем организовать квалифицированный перевод текстов (в том числе с участием авторов) на английский язык. В этой связи редколлегия повторяет свою просьбу ко всем авторам сообщить нам свои рабочие и домашние адреса и телефоны. Поскольку в последующих номерах "Интервальных вычислений" будет продолжаться публикация библиографии, новые ссылки и исправления, мы просим всех авторов информировать нас о замеченных неточностях, об отсутствующих ссылках на старые работы и о появлении новых (в том числе находящихся в печати). Всю информацию следует направлять Л.В.Куприяновой (если возможно – на дискетах) по адресу: 410090, Саратов, ул. Тархова, д. 14-б, кв. 5. Ссылки на языке оригинала необходимо оформлять по ГОСТ, их перевод – в соответствии со стандартом настоящей публикации. Одновременно редколлегия сообщает о том, что принятое в данной библиографии написание фамилий авторов и перевод самих ссылок являются нормативными для последующих выпусков "Интервальных вычислений" (если, конечно, не будет опубликовано исправление), и убедительно просит авторов придерживаться этого норматива в английских версиях

работ, передаваемых в "Интервальные вычисления" для публикации.

Библиография в виде ASCII-файла доступна по электронной почте. По вопросу получения просьба обращаться к главному редактору.

124. Kaishev, A.I. *A more precise scheme for construction of a posteriori interval extensions for elementary functions*. Voprosy kibernetiki **149**, Scientific Council on Complex Problem "Cybernetics" of the USSR Academy of Sciences, 14-18 (1989)

- 118a. Glazunov, N.M.; Malyshev, A.V. *The proof of Minkovsky's hypothesis on critical determinant at the region $x^p + y^p < 1$ near $p = 2$* . Doklady Akad. Nauk Ukr. SSR, ser. A 7, 9-12 (1986)

REMARKS

- 1) In the version published in Interval Computations 2/1991 and 1(3)/1992
 - a) the references 65, 66, 116, 118 should be replaced by the references 65a, 66a, 116a, 118a;
 - b) the references 62, 63 should be deleted;
 - c) in all references the word "perspective" should be replaced by "prospective" and the word "perspectives" to the word "prospects".
- 2) New references have been inserted in the lexicographical order of their numbers.

ЗАМЕЧАНИЯ

- 1) В тексте библиографии, опубликованной в "Интервальных вычислениях" No 2/1991 и No 1(3)/1992 следует
 - а) ссылки 65, 66, 116, 118 заменить на 65a, 66a, 116a, 118a;
 - б) удалить ссылки 62, 63;
 - в) во всех ссылках слово "perspective" заменить на слово "prospective" и слово "perspectives" на слово "prospects".
- 2) Новые ссылки следует включить в лексикографическом порядке их номеров.
